

## The guidelines for submissions are simple ...

1. Send by email an article 900 to 1600 words as an attached word.doc.
2. Articles must be exclusive to Kinetics Magazine for three months.
3. Include any color pictures in \*.jpg format 72dpi (low resolution for the web). Make sure your size does not exceed 800 pixels in height or width.
4. Allow 4-6 weeks for the editor to read and respond.
5. Since we do not have a budget for authors, please use the last short paragraph for your bio and contact info. Web sites or email addresses will be hot linked.
6. You must include a release/permission to print from the author as a separate word.doc with all your contact information.
7. Also our policy is not to print any articles previously printed in another publication or for an article we print to appear in another publication for 3 months following our issue.
8. Remember to read our Mission Statement or past issues and check out the Upcoming Themes for each month so what you submit is a good fit for the energy of Kinetics Magazine.

Please keep in mind that the Editor of Kinetics Magazine holds full editorial control. She will never change the concept or tone, but will make all articles grammatically correct. *We look forward to reading your work!*

Thank you,  
Kathryn Brinkley
